Education

Indian Institute Of Information Technology, Kottayam

B.Tech in CSE (Major in Artificial Intelligence and Data Science)

Graduation: 2027

CGPA: 8.76/10

Experience

Markettrack

Software Development Intern

Linkedin

Sep 2025 – Current

- Working as a **Full-Stack Developer**, optimizing the existing codebase and contributing to both frontend and backend modules by implementing scalable solutions and new features to enhance user experience and system performance.

AlgoUniversity (Y-Combinator-backed EdTech)

Live Demo | **Source Code**

Software Engineering Co-op Intern

May-july 2025

- Developed a production-grade **full-stack online judge platform** enabling real-time code execution, automated grading, and progress tracking for learners.
- Integrated the **Gemini API** for intelligent resume reviewing and personalized learning recommendations to improve user engagement.
- Implemented daily **activity heatmaps, contests**, and **dashboards** to visualize user performance and enhance retention.
- Containerized microservices using **Docker** and deployed seamlessly on **Render** and **Vercel** for scalable cloud hosting.
- Currently building a real-time **contest feature** using **WebSockets** to support live coding interactions; mentored by engineers from **Google**, **Apple**, **Bytedance**, and **Alphagrep**.

Amity University – USRF 2025

Source Code

Research Intern

Noida, India — June 2025 – July 2025

- Built a CNN-LSTM-attention-based **multi-label deep learning model** for physiotherapy exercise recognition using sEMG and motion sensors.
- Achieved **F1-score of 91.7%**, outperforming traditional methods like Binary Relevance (BR), Classifier Chains (CC), and Label Powerset (LP).
- Co-authoring a **research paper** for submission to a peer-reviewed international journal.
- Tools: Python, TensorFlow, NumPy, SciPy, and signal processing libraries.

Projects

Contract Intelligence Parser – Full-Stack AI Application

Live Demo | **Source Code**

- Developed an end-to-end **AI-powered contract analysis platform** (React 18 + FastAPI + MongoDB) capable of parsing and extracting key financial and legal data from 100+ PDF contracts with high accuracy.
- Implemented a responsive **drag-and-drop interface** and **NLP pipeline** (spaCy + regex) for real-time data visualization, cutting manual review time by **80%**.

ChatNova – AI-Powered Conversational Platform

Live Demo | **Source Code**

- Developed a dynamic AI chatbot platform using **Gemini API** and the MERN stack, supporting real-time messaging and prompt customization.
- Implemented secure **JWT-based authentication**, Redux for global state, and deployed on **Vercel** and **Render** for fast global access.
- Developed an interactive **dashboard** displaying all user chats, with features including one-click chat **summarization**, total messages, total chats, average messages per chat, and **last active date**.

Technical Skills

Languages: JavaScript, Python, Java, C++

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, FastAPI, TensorFlow.

Frontend: TailwindCSS, HTML, CSS, Bootstrap, Vite

Cloud & Databases: MongoDB, MySQL, AWS, Docker, Vercel, Netlify

Core Computer Science: Operating Systems, Database Management Systems (DBMS), Computer Networks (CN), Object-Oriented Programming (OOP)

Developer Tools: GitHub, VS Code, Postman, Jupyter Notebook

Data Structures & Algorithms

- Solved **300+ problems** on platforms like **LeetCode**, **Coding Ninjas**, and **Codeforces**, covering key topics such as *recursion*, *dynamic programming*, *greedy algorithms*, *trees*, and *graphs*.
- Achieved a LeetCode rating of **1528** and participated in regular contests to improve problem-solving under time constraints.

Leadership and Achievements

- Represented the state as a **State-Level Kabaddi Player**, demonstrating teamwork and discipline.
- Competed as a **State-Level Athlete** in track and field events, showcasing consistent performance and fitness.
